

Consent to Release of Information Homeless Management Information System

PURPOSE

The Solano County Homeless Management Information System (HMIS) is a shared database that collects information about you for the purpose of assessing your needs for housing, medical, employment, and other services.

HMIS is administered by CAP Solano JPA through a HMIS Lead on behalf of the Housing First Solano Continuum of Care (CoC). Licensed users from authorized non-profit organizations and government agencies (Partner Agencies) will have access to your information. New agencies that join the CoC will have access to your information only after they agree to the confidentiality provisions of the HMIS agreement and receive training to properly utilize the database. Information collected through HMIS will not be released to unauthorized persons or organizations without your consent unless subject to a lawful information request.

Your information is protected by limiting access rights to HMIS and by limiting the parties to whom the information may be released, in compliance with Federal, State, and Local regulations. Each person or agency with access rights to HMIS, or to whom client information is released, must sign an agreement to maintain the security and confidentiality of client information. Upon any violation of the agreement, access rights may be terminated, and the person or agency found to be in violation of the agreement may be subject to further penalties.

You have the right to refuse to share your data with HMIS. While you cannot be denied services on the basis of a refusal to consent to participate in HMIS, without your data, it may be more difficult to connect you to appropriate services.
